This boy is a black lab mix, approx 7 yrs young, male neutered, pulled from Columbus animal shelter in June.. still waiting for a forever home !!. Foster mom shared this: Probably BEST as an ONLY DOG because he is protective of property; not immediately friendly with strangers in the house. He does not get along well with my dog but she instigates most of the arguments. He has a prey drive - wants to chase cats, but unsure if he would harm them. Growls slightly when you try to get him to do things he doesn't want to do (such as a bath). Trainer evaluation (Janet at SkyviewK9, TROY, OH) said that he would benefit immensely from training and would be a perfect dog. (If adopted, DREAM pet rescue - Dream4pets.org - will assist with the training expenses.)

- Loves attention (howls for it actually),
- Favorite toy: Kong, ball and leash
- Enjoys: car rides, walks, playing ball, chew toys
- Favorite activity: Cuddling or playing
- Demeanor: Calm but loves to play
- Interaction w/visitors: Whines more than barks
- Inside - has bedroom and sleeps in crate when in living room
- Outside: chain-link fence
- ASTRO will bring you the leash when he wants to go out or play. Very good watchdog, rarely barks. He is super smart and very loving. Loves peanut butter in his kong toy. Wants nothing more than to be loved on.
