

Deak

HANDSOME DEAK (Deacon) is an energetic boy (100% chocolate lab), neutered, current on all vaccines, house trained, crate trained, approx 76lb, and just turned 7yr in January. Don't let his age fool you because his energy level will surprise YOU ! He would be a great jogging partner if that is something you like to do routinely; he is still learning to walk at "normal" pace. He is a bit of a speed walker... so anyone that roller blades or jogs or walks at a brisk pace can keep up with him. **He needs a large fenced yard, playtime and exercise routinely because.....we all know "A TIRED dog is a GOOD dog"** Deak enjoys tug of war with his rope toy or a kong ball, and his personal (kiddie) pool is much loved (during the summer); if there's a creek or rain puddle he will find it and partake ! Need a kiddie pool for Deak? It comes with his adoption :-) Deak thrives on playing, exercise, eating and human companionship. His daily routine is time outside watching birds, chasing squirrels or rabbits (he has a strong prey drive so "nose work" is something you will see often from him), playtime throughout the day, nap time, and sometimes a car ride , AND just hanging with his human companions wherever they are inside or outside. He will greet his humans with toys or kisses, and he tries to be a LAP dog, so be prepared for this boy's intense level of affection 😊 Adults are the BEST FIT for this boy with no other pets in the home. Deacon is very smart and has done very well with his training; he knows **basic commands necessary to help manage his behavior, and would do best with someone dedicated to providing on-going training, exercise, playtime, and companionship.**
