

Deak

7 -8yrs, neutered boy, approx 75 - 80lbs, current on all vaccines

House trained, crate trained (but not necessary), and has specific "**obedience commands**" he must follow to help manage his behavior. He would do best with someone dedicated to providing consistent leadership, rules and routine, exercise, playtime, and companionship .

This country boy would love a large fenced yard (or farm) to run, hunt and exercise daily because.....we all know "A TIRED dog is a GOOD dog" Deak's TOYS are of great value to him, he enjoys showing you every day. (Has one in his mouth every time he goes out, lol) Short periods of play...tug of war with his rope toy or a Jolly ball, AND his personal (kiddie) pool are also FAVORITE activities for him; if there's a creek or rain puddle he will find it and partake ! Need a kiddie pool for Deak? It comes with his adoption :-)

His daily routine is potty, then breakfast, then...time outside watching birds, chasing squirrels or rabbits (he has a **strong prey drive so "nose work" is something you will see often from him**), playtime and nap time throughout the day... a little pool time and sometimes a car ride. Being anywhere with his human companions - inside or outside - gives him lots of comfort and joy. Deak is an energetic and curious boy! He would be a great jogging partner, and is a bit of a speed walker... (he's in training to walk at a "reasonable" pace) . Anyone that roller blades or jogs or walks at a brisk pace would be a benefit to him. He will greet his humans with toys or kisses, and he tries to be a LAP dog, so be prepared for this boy's intense level of affection if you are a member of his family 😊

Deak is most secure and best behaved with **rules and routine**, he loves his toys and play time (long or short), exercise (walks and hunting), and human companionship. He is a strong boy and a **stronger PROTECTOR** of his home, yard and family. Adults are the BEST FIT for this boy with no other pets in the home.
