

Honeybee

Honeybee is almost 3yrs young, spayed female, current on vaccines, about 32lbs, house trained and crate trained, hw negative, flea free, and a Jack Russell mix. She loves and thrives on human companionship, AND enjoys her outdoor time with her 4 legged sister, Gracie an adult Golden Retriever. **We believe an older and calm dog who is a role model will help her adjust to a new home, family and the routine of life....and as a possible playmate too.** Honeybee is learning the following commands Sit, Wait/Stay, and Here. She loves to training and would be great at agility (due to her energy...she is a working/hunting breed) ; when training be sure they are "high value" treats (she does like hot dog slices and cheerios).

Like MOST young dogs, Honeybee is very energetic (due to her young age and breed)....so playtime and exercise should be an important part of her daily routine. She does enjoy car rides and will walk well on leash when using the Gentle Leader. Honeybee is a very HAPPY energetic girl, but will also show her calm side when she is comfortable and trusting of her companions and environment. She is good with other dogs, very curios w/cats (don't recommend she live with this prey) ; and, she loves human companionship...is good with all family members (adults and children).
