

Honey

Honey (aka Honeybee) is spayed female, Jack Russell, Beagle, Terrier mix, 4yrs young, current on vaccines, about 35 lbs, house trained, crate trained, hw negative, and like all of our canines...flea free. She enjoys her human companionship AND outdoor time with her 4 legged sister, Gracie an adult Golden Retriever. We believe an older and calm dog who is a role model will help her adjust to a new home, family and the routine of life....and as a possible playmate too. Honeybee knows the following commands Sit, Wait/Stay, and Here. She loves training and would be great at agility. Playtime and exercise are an important part of Honeybee's daily routine. She does enjoy car rides and will walk well on leash when using the Gentle Leader. She will show her calm demeanor when she is comfortable and trusting of her companions and environment, and exercised bec we know " A GOOD DOG is a TIRED DOG" ;-). She is good with dogs that are calm and typically adult age. She has strong prey drive so we do not recommend she live with cats. She can be quite a cuddler with her human companions if given the chance as that is her "HAPPY" place; she is good with all family members (adults and children over 12 years of age). Questions ? Email petsRRpassion@gmail.com Or... send us your adoption application which is located on ADOPTME page at www.Dream4pets.org
