

Layla

Layla is 1 - 2 years young, spayed female Shepherd and Lab mix, current on vaccines, dog and cat friendly, and seems to do well with men, woman and children. She has a very playful nature, and exercise is a must for all young dogs; however, she is also comfortable relaxing with her companions: canine or human. Layla lost her back leg due to a severe injury she sustained when she ran away from her previous caretakers; we think she may have gotten hit by a car. She does great moving through the house at her foster home and has mastered stairs to a second floor. Like all Dream dogs, she is micro chipped and will require a fenced yard.

Adoption applications are located on the ADOPTME page at www.Dream4pets.org
Adoption applications now being accepted.
