

DOGGONE ADOPTIONS  
CONTINUES TO HELP THE  
FAMILY OF MISS LUCY to find a  
wonderful loving home. Lucy was  
found as a stray in 2014. She was  
adopted by a sweet, loving 80 year  
old caring woman and lived happily  
in her home for 2 years. Due to  
some life changes, the owner had  
to move from her country home to  
a place that doesn't allow dogs.  
Lucy is a sweet little girl that loves  
attention. Loves running with her  
Jolly Ball in her mouth, dropping it,  
and then rolls over on her back and  
tries to roll over the Jolly Ball

itself!! She is approximately 5 years of age, house trained, spayed, microchipped,  
and current on vaccines. Lucy is great with kids, friendly with other dogs, but  
doesn't seem to like cats. Because she has not shared a home with other animals,  
we feel as though it would be best if she was the only pet. Even though she is  
active and does love to explore the yard and play with her toys, she ultimately  
wants to be with her people and will curl up on the couch beside you. Due to  
Lucy's speed and strength, a physical (not invisible) fence is required. For those  
same reasons, it would be better for any children in the house to be at least 10  
years of age. She can be soooooo exhuberant and excited at times, that she could  
accidentally topple over a little one. There will be a re-homing fee requested by  
the family of \$150.00. **EMAIL: [weloveourguys2018@yahoo.com](mailto:weloveourguys2018@yahoo.com).**
