

# Maisy

Maisy (born Jan 2019) is a spayed female, current on vaccines, hw negative, flea free and micro-chipped, crate trained, house trained, and learning to walk without pulling on her leash. She is a blend of Border Collie/Chihuahua blend -two very strong personalities that like to guard & protect; therefore socialization is a very important and required activity for her, and her foster mom is doing a great job with this ! Maisy LOVES car rides because she enjoys tagging along with her companions wherever they go.

Her foster mom says: Maisy is a "happy go lucky" girl; however, she still needs routine, rules and constant socialization to help her be more trusting of new situations and new people she encounters in life. Maisy shares her foster home with ONE other dog (age 3); she displays no aggression or guarding. She would do well with another dog (we recommend male) as a playmate. With the help of her current 4-legged foster brother and foster family she has blossomed with confidence to explore the backyard on her own; however, when startled, she tends to come running back to her foster mom ;-).

Maisy definitely enjoys her playtime, running and sometimes chasing her 4 legged companion. Other times, she will meander the house and yard on her own, OR can be found napping on her caretaker's lap or beside her 4-legged friend on the floor. We know a "tired dog is a good dog", SO.... a family with children over the age of 12 (and another dog no more than 50lbs) would be wonderful for this girl, to help deplete her energy and provide the companionship she thrives on. Maisy's joy and contentment in life comes from her companionship with family. We do recommend a fenced yard, and a some basic training to help her bond with her caretaker and family.
