

Rocko

ROCKO is a 29lb, active, neutered male, 9 years young, gentle & sweet, possibly cattle dog or basenji mix, fully vaccinated, flea free, and heartworm negative, crate trained, and house trained. ROCKO has lived most of his life as an "only child" and needs his environment to stay that way. He is a **very happy, active, playful boy who is always ready to GO.. GO** on a walk, **GO** on a car ride, **GO** outside, **GO** play, **GO** for a run, **GO** hiking, etc.... and is happy to rest with his trusted companions nearby. He does great with car rides, and with a gentle reminding walks well on a leash. He is very smart and a quick learner, he does know sit and stay. **ROCKO loves human companionship and being with them (or beside them or in their lap) at every opportunity;** adults and children over the age of 12 are recommended. He will bark to alert and protect his family. Family and routine is very important to ROCKO; he thrives on BOTH! His favorite toy: squeaky tennis balls and very durable (KONG) toys. He can be anxious with other dogs near "his" toys and "his" personal space; training is definitely recommended if another dog is in the home. A fenced yard (minimum 4 feet height) is a requirement.
