

Roxie

Roxy is almost 3yrs young, spayed female, approx 50lbs, terrier, current with vaccines, and heartworm negative. She loves to be outside or inside ...wherever her human companion or family isthat's the nature of this breed....forever loyal and happy when with companions, happy to be your best friend and cherished companion. Roxy enjoys exploring yet will "check back and check in " to ensure you're still close by. Roxy is a very social girl, sweet and good natured with men, women and children; she must be an only dog. Privacy fencing is the best solution for her as she has been known to climb and jump a 5 ft chain link fence.
