

Sheba

Sheba is a spayed female, approx 7 yrs young, hw negative, and current on vaccines. Her DNA shows she is Weimaraner, Poodle and Terrier mix; so she has energy for hunting, retrieving, running, chasing, and playing with her ROPE toy (her favorite activity). Even though she is an energetic girl she can be easily content as a couch potato next to her favorite companions. Sheba would do best with an experienced handler and leader to provide her with the structure she needs. She has a strong prey drive and should not be in a home with small animals. A fenced yard, preferable 6ft privacy, is required. Due to her size and energy, we recommend children older than 12.

SHEBA is posted as a courtesy for Doggone Adoptions rescue (She lives in Casstown OH). If interested in SHEBA, EMAIL doggoneadoptionsOH@yahoo.com
