

Shep is a wonderful senior (approx. 9 years of age) boy. He is neutered, microchipped, current on vaccines, heartworm negative and on monthly prevention. In 2011, Shep and his partner, Zoey, were taken in by a local rescue after being turned in to a nearby shelter. The rescue was unsure but guessed their ages at the time to be between 18 mos.-2

yrs.of age. Since the group that rescued Shep and Zoey have no facility, we have provided free housing and their daily care from the start. Attempts to adopt them out as a bonded pair (which they truly were) were unsuccessful. In December, 2016 we requested and were given custody of both Shep and Zoey by the previous rescue. Zoey was adopted into a wonderful home in January, 2017. We were concerned how he would do after Zoey left, but he is great! He is as energetic and loving as he's always been. He is very good with children that know how to be around dogs (no ear pulling, eye gouging, or jumping on a dog's back, etc). He must be the only pet in the home since he doesn't like cats--and possibly other small animals-- and doesn't get along with other dogs. His longtime partner, Zoey, was the only exception to that rule. Due to his size we prefer any children in the home be over the age of 10 for safety's sake. Shep does not trust men and is fearful of them. He becomes very stressed and agitated. We don't know what in his past may have caused this fear, but his longtime partner, Zoey, has exhibited the same fear of

any men coming into her new home. Luckily, her adopter is a very kind, patient lady. So, it looks like our boy Shep needs to be a ladies' man to be truly happy. Plus, a yard that has a physical, not invisible, fence for his safety. He is just a sweetie. There is an adoption fee of \$150.00. Apply to adopt this wonderful boy today (We find that we must limit our adoption area to between 1 and 1 1/2 hours from Troy, Ohio.)
