

Tucker

This hunka hunka burnin love right here is literally such a fantastic boy!! He is a 6-7 year old boxer/lab mix (about 50lbs) and has the personality of both breeds (like almost to the T). Fun, Smart, Goofy, a bit high energy, Loving, Care free etc!!!! With Tucker and my little one (who is 3 and 1/2), it is like having two toddlers in the house 😄 I only say this since he wakes up ready for the day, ready for what's next, maybe an adventure, maybe a car ride or walk.....who knows, but he's always up for a good time!! He listens SO well and honestly the only think I could say is that we are still working on with him is leaving him out of his crate when we are not home since he is a counter surfer and likes to eat anything that smells good, but that's an easy fix, we just don't keep anything tempting out. Although he loves his crate and will go in there when asked, and, when he just wants to have his own space; he DOES love playing with toys especially balls and being chased. Tucker can sit/shake and high five!! He's good on a leash, car ride and just chilling out with us ❤️❤️ Great with our cat, great with kids and other dogs, haven't had any issues when I open the front door with him running out, digging or taking off.....will stay when told and come when called. (Testimony from foster mom !) AND.... like all DREAM dogs, he is neutered, current on vaccines, hw negative, flea free and micro-chipped.

If interested in adopting TUCKER, please complete an **adoption application** on the ADOPTME page at Dream4pets.org OR, email us your question at PetsRRpassion@gmail.com
