

# Archie

This young boy, **ARCHIE** is perhaps 2 or 3 yrs young, about 20lbs and we think possibly a schnauzer/poodle mix. Found stray in late DEC, never claimed, and now fully vaccinated and neutered. **ARCHIE** is currently in a foster home with other dogs (female and male, all older, all larger than him). Like many young dogs **HE** can be a little intrusive meeting other dogs (smelling them up close and personal); he does he take correction well from other dogs. This young boy will definitely need daily playtime, a walk or run time to help him release his energy, and a fenced yard is required for our young adoptable friend. **ARCHIE** can be independent, shows no separation anxiety, does very well with car rides, loves exploring new territory, seems confident, and well socialized, (unsure about cats). **HE** is a very smart boy, but will show his stubborn streak at times; so, consistent training is highly recommended. We are still searching for the special reward that motivates him for training. he does not seem to be "treat motivated".

**ARCHIE** is crate trained, house trained, and knows: Sit and Lay down. He is learning to "walk on leash"... the shorter the leash the better for now. He is best described as: a Snuggle buddy / lap boy, Sweet, silly, Happy Go Lucky boy :-) **ARCHIE** has very little (if any) shedding; his coat is potentially hypoallergenic but requires frequent brushing and professional grooming to prevent matting.

We've been told... **ARCHIE** is a bit of a goofball as well as a constant companion... and maybe even a hint of "free spirit". He is currently in foster care in Miami County, OH
