

Moxie

MOXIE is (we estimate) 5 yr young, female terrier mix, spayed, close to 50lbs, current on vaccines, heartworm negative, and flea/tick free. This wonderful young lady spent most of her early years crated in a basement, but NOW with the help of a foster mom (and furry companions). **MOXIE** is finding great pleasure and joy in many new life adventures. She still finds comfort in her crate; however, **when a furry friend (of similar size and age) comes to visit she is READY for some PLAYTIME**, or if/when the neighbor's goat gets loose she is quick to join the "chase team" ;-). She is very comfortable with children and women; sometimes, it takes a bit longer to warm up to men.

Ms. MOXIE is CALM, a bit independent, and learning change can be good and fun! Foster mom says.....Every week **MOXIE** is **beginning to blossom and show more confidence, courage, trust and joy in her new life**; it is so great to see her "be a dog" instead of hibernating in her crate. **She is very respectful of other dogs, always waiting for her turn.** We believe MOXIE would do BEST in a home with a dog of similar age, size and playfulness. She recently experienced and discovered a LOVE for a pet massage so that is now a part of her new life routine in foster care.... And she is enjoying some frequent car rides as well.

INSIDE her home, she may meander through house OR collect a few toys (elk antlers and her soft squishy toy) and retreat to her crate. Her toys and blanket provide her with comfort and security she enjoys at nighttime when crated. OUTSIDE, she with either: meander the yard, take a nap outside in the sunshine with you by her side, OR lounge on the front porch waiting & watching for an opportunity to "meet/greet" someone walking with or without a furry companion. She walks very well on leash, and will do a short sprint if she gets loose.

MOXIE may initially appear a bit shy, cautious and reserved, but once she feels you are trustworthy her personality will bloom. Recognizing her with a compliment seems to provide comfort and inspire a smile and/or tail wag. Like many of our furry friends, ROUTINE is important to **MOXIE**, it helps her feel comfortable and safe. We always recommend a fenced yard for our adoptable friends. IF you are interested in **ADOPTING MOXIE**, visit our website (Dream4pets.org) and send us your application found on the **ADOPTME** page.
